

The Federal Communications Commission  
445 12th Street, SW  
Washington, DC 20554

Dear The Federal Communications Commission,

I do not want to pay more for my telephone service so that corporations will get a big break on their fees! I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I completely disagree with this type of law that amounts to corporate welfare. INDIVIDUAL CITIZEN ARE WHO ARE MOST IN NEED OF YOUR REPRESENTATION AT THIS TIME!

Under the flat fee proposal you are considering, people who make few long distance calls would pay the same as people or businesses that make many calls. In other words, low-volume and primarily residential customers would bear the same universal service fund burden as a high-volume residential or business customers. This is unfair!

I use my wireless phone for safety, security and convenience. I don't want to lose these benefits so that big businesses can pay less than their fair share. Because they use the services more and reap many financial rewards from them, they should carry a larger part of the cost of maintaining the infrastructure. I urge you to reject the proposal to move the USF collection system to a flat-fee.

Keep the USF Fair!

Sincerely,

Mark Martin
